

TITLE OF MY PRESENTATION

And a subtitle

Firstname Lastname

Other info to put on the author line

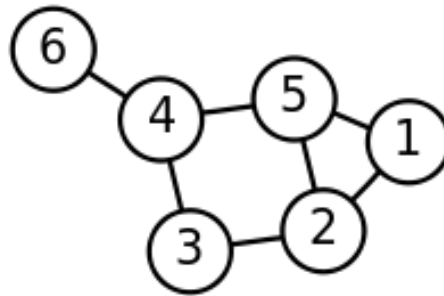

Intro slide

Here is a list that should build:

- I like formulas, like this one $e = mc^2$
- It's rendered using MathJax. You can change the settings by editing base.html if you like
- pressing 'f' toggle fullscreen
- pressing 'w' toggles widescreen
- 'o' toggles overview mode

Slide with a figure

Subtitles are cool too

- Some point to make about about this figure from wikipedia
- This slide has a class that was defined in theme/css/custom.css

Always cite your sources!

Segue slide

I can haz subtitlz?

Maybe some code?

press 'h' to highlight an important section (that is highlighted with `...` tags)

```
function isSmall() {  
    return window.matchMedia("(min-device-width: ???)").matches;  
}  
  
function hasTouch() {  
    return Modernizr.touch;  
}  
  
function detectFormFactor() {  
    var device = DESKTOP;  
    if (hasTouch()) {  
        device = isSmall() ? PHONE : TABLET;  
    }  
    return device;  
}
```

JAVASCRIPT

Thanks everyone!
